

Need Captioning for your Video Meetings, Webinars or Conference Calls?

By Lori Timney

Assoc. Accessibility Relationship Manager
for New Jersey Relay

Email: lori.timney@t-mobile.com

Do you or someone you know struggle to hear or speak during video meetings, webinars and/or conference calls? We have a solution! It's "Relay Conference Captioning", or "RCC" for short.

RCC users read live, real-time captions through a web browser on any internet-connected computer or mobile device. The captions are provided by the same high-quality captioners who make television shows accessible. Some RCC features are:

- ↳ Scrollable transcript to read/re-read
- ↳ Captioning settings for different font sizes, styles, and colors
- ↳ Captioner ability to read aloud RCC users' typed responses
- ↳ Supports multiple video platforms
- ↳ Adjustable RCC window
- ↳ Save, email, or print RCC transcript

The best part is that RCC is available at no charge for anyone who is deaf, hard of hearing, or has a speech disability and lives or works in New Jersey. Visit www.njrelay.com/rcc for more detailed information.

RCC can help you feel empowered and stay engaged with your associates! If you know someone who is challenged by online group discussions or conference calls, encourage them to check this out!
